

Dear FCC official, i know i am not worthy to give any say regarding the aspiration on your behalf to introduce the new broadcast service. But it has been very kind of you to request for public comment as as to determine whether such action wins the public approval.

I remember i first tuned in to KLOVE last year. KLOVE serves listeners by providing christian songs to the christian community even outside America, through the internet. I valued some songs played by KLOVE as it enriched my life with songs that are relevant, timely and dynamic. Certain lyrics of songs played on KLOVE strengthens and deepens my faith as i recount the lyrics in the "low" times in life.

Although i may not be sure of how many have once listened to KLOVE, i can be quite sure that many felt the impact and influence KLOVE have on their lives. We all agree that after a certain period of time, changes need to be made. But if KLOVE has been replaced by LPFM broadcaster, many KLOVE listeners will undoubtedly feel sad, since they know that they could unlikely challenge the authority. Certainly this would be a sad day for the KLOVE community. However, i do not know what are the advantages of LPFM broadcaster service over the FM translator. Still, i hope that KLOVE will be still on air.

From what i observed, KLOVE also provides services which serves the community other than music. I remember one time when there is a donation drive to collect funds for children in poor countries. And there is also a time when the public has been given a chance to write notes of encouragements to soldiers serving in Iraq sometime last year. These are the few events that leaves impact on my life on what KLOVE is doing to serve the community. Thank you.
